www.profit-over-life.org

Profit Over Life

After 60 years of silence, the Profit Over Life online archive opens up the records of the Nuremberg War Tribunals against IG Farben, the largest chemical/pharmaceutical multinational during the first half of the 20th Century, to people everywhere. The tens of thousands of documents contained in the archive unequivocally

document that WWII – a war that cost the lives of more than 60 million people – was planned and financed by the IG Farben cartel, at that time consisting of Bayer, BASF, Hoechst and others.

Students, teachers, academic researchers, politicians and millions of people worldwide are therefore invited to use this archive as the basis for better understanding history. This is particularly important because multinational corporate interests continue to this day to use military force to reach their global goals.

www.reject-the-eu.co.uk

Reject the EU!

For citizens of the UK, the exposure of the Nazi roots of the Brussels EU is a particular provocation. Having twice previously – in WWI and WWII – played a critical role in saving Europe from takeover by the Oil and Drug Cartel and its political stakeholders, they are now faced with the possibility that the great human sacrifices of their countrymen were in vain. With their subjugation under the Lisbon Treaty and the Brussels EU, the lives of sixty million Britons living today, and countless more as yet unborn, would come under the yoke of the very same interests that have tried to conquer and seize control of the UK twice before.

Citizens of the UK are therefore urged to help disseminate the information contained on the Reject the EU! website among their family, friends, work colleagues and in their communities, and, moreover, to confront their political representatives – at local, regional, national and European levels.

www.relay-of-life.org

Relay of Life

The Relay of Life website describes how, on November 13, 2007, more than 30 survivors of the Auschwitz extermination camp and other Nazi concentration camps assembled in Poland for a one day conference at Auschwitz. Based on their unique moral credo, this extraordinary group of people decided to throw their weight into the discussion about Europe’s future. In a solemn ceremony, the survivors of this “hell on earth” shared their experiences from the past and also proposed a constitution for a “Europe for the People, By the People.”

The conference was jointly organized by the Dr. Rath Health Foundation, the non-profit organization that has been instrumental in exposing the fraudulent nature of the pharmaceutical business with disease and showing how the driving principle of this industry, both in WWII and now, is profit over life. In recognition of this work, the Foundation also received the “Relay of Life” from the survivors of Auschwitz, with the symbolic request to carry the remembrance of Auschwitz into the future.
